# International MODEL BOAT SHOW *Featuring* TAMIYA TRUCKIN

## MODEL BOATS AT THEIR BEST!

Welcome to the 21<sup>st</sup> International Model Boat Show. Created in 1998, the show is now one of the UK's leading marine modelling exhibitions and the only 3 day exhibition dedicated to all aspects of marine modelling.

As you go around the exhibition you will see many specialist marine modelling suppliers offering a vast range of kits, hulls and accessories. Whatever you need for your project you are sure to find it here. Make sure you visit them all to see their full range of products on offer. The Tamiya Truckin display arena is also back with us.

Visitors can enjoy the excellent and varied displays of models, from early warships to modern power boats and ships, which are complimented by action on the boating pool. The Surface Warship Association will again lead a poignant tribute during the 2 minutes silence on Remembrance Day and for younger visitors, don't miss 'children's time' at the poolside at 11.40am-12.00pm and 2.00pm-2.40pm on Saturday and Sunday.

Our special display stand this year features a 1:72 HMS Ark Royal model which has been researched and built over a period of 25 years by Royal Navy veteran David Fortey.

Our thanks to all of our exhibitors in making this what I hope you will agree is yet another hugely interesting and successful International Model Boat Show.

We trust you will enjoy your visit and make sure you visit the mezzanine restaurant for breakfast, lunch or afternoon tea - whilst watching the boating action!
